

INGENIUM

Digital programmable electric wifi radiator, with thermal fluid
Wireless control and operation with the G Control System (via WIFI)

Technical features

- Electronic TRIAC control optimizer (ETCO).
- Integrated G Control System for configuration and remote control of the radiator via Internet.
- White backlight LCD display.
- Individual daily and weekly programmer.
- Three temperature levels selector: Comfort, Economy and Frost Protection.
- Temperature selector with display of set-point temperature.
- Open window detection for reduced energy waste.
- “Adaptive Start” function.
- Geo-location via an Internet connection.
- EcoFluid technology. Shell brand thermal fluid.
- Built-in electronic ambient thermostat $\pm 0,1^{\circ}\text{C}$.
- Keyboard lock function.
- Thermal safety cut-out.
- Temperature sensor with calibration option.
- Straight design elements of injected aluminium alloy finished in Epoxy Ral 9010 powder coating.
- Supplied with mains cable.
- Quick and easy installation, thanks to the patented wall fixing brackets, without the need for measuring or levelling.
- G Control Hub EU and G Control Hub USB offered as accessories to control and manage the radiator via Wifi.
- G Control Power Meter, offered as an option to control and manage electrical consumption at the home.
- G Control System is compatible with Amazon Alexa and Google Assistant.
- Compatible with castors offered as an accessory.
